## Sprint #1 Planning Document

## Overview

This document lists all of the user-stories, their corresponding specific tasks, and the amount of non-distracted work-hours that we estimate each task will take to complete.

User Story  "As a user I want to be able to log into the website and create posts associated with my account"	Task	Work Hours (est)
	Create server architecture to	handle posts 10
	Create server architecture to and redirect unauthorized remain page	11411410 0.5015
	Design the plan for the website's appearance as well as what pages should be present in the final product to make writing the html and database models easier 8
